PORTFOLIO

Your solution IN A DROP

With more than 30 years' experience in the pharmaceutical industry, we offer a complete service for contract manufacturing, contract filling and packaging of pharmaceuticals, medical devices, diagnostic devices, veterinary products and cosmetics. Whether in liquid, cream or gel form, products can be manufactured in sterile or non-sterile environments and packed in single-dose or multi-dose containers and preservative-free bottles.

With 13 automated production lines, we operate in compliance with European GMPs and in accordance with the ISO 13485:2016 and ISO 22716:2007 standards.

Private label PRODUCTS READY TO BE DISTRIBUTED

We offer customers a complete range of medical devices for nasal and eye care, ready for customisation with the graphics and brand of the distributor. They are CE-marked and can be sold in EU and non-EU countries, once they have been registered locally. They are compliant with Medical Devices Regulation (EU) 2017/745.

EYE CARE

A complete range of drops for eye care and for the most common eye problems, in single or multi-dose containers, with or without preservatives and available also in a spray version. The products combine the action of plant ingredients with cellulose and/or sodium hyaluronate, also in an innovative cross-linked version with a prolonged action. Thanks to their soothing and hydrating properties, the drops help alleviate redness, tiredness and irritation.

NASAL CARE

A complete range of nasal solutions with ingredients of natural origin, sterile and preservative-free. The formulations, naturally rich in marine salts and trace elements, contain plant extracts and ingredients with protecting, hydrating and decongesting properties. For daily hygiene or as an aid for treating colds, sinusitis or allergies.

For mild dryness AND DISCOMFORT
